want to delete a photo or video. Press OK to delete a photo or video. Hold the menu button for 3s to exit playback mode.

Troubleshooting

1. The device can not be turned on.
 - Recharge the battery
 - Ensure whether the power source has been successfully connected
2. TF card reading failed.
 - Make sure that the TF card meets the camera requirements (the biggest supported format is 64GB micro TF card in FAT 32, and the transmission speed must be Class 10 or higher)
 - Remove the TF card from the slot and insert it again
3. When the device is connected to the PC, the TF card cannot be read.
 - Reconnect the device and the PC
 - Add permission to enter main storage mode
