

# **Magnetic Wireless Power Bank with USB-C and Lightning Cables - 10000mAh/15W**

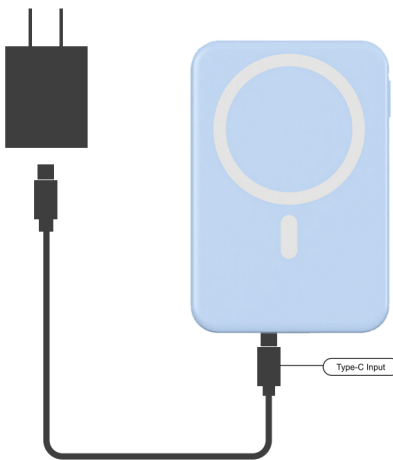

1. Magnetic attraction mark
2. Lightning input port
3. Type-C input/output port
4. Type-C line
5. On/Off
6. Intelligent digital display
7. USB output port
8. Mobile phone holder

Mobile phone holder usage display picture

## How to charge the device

1. Please use an adapter with an output voltage of 5V to charge the power bank.
2. When using it for the first time, please use up the power bank and then recharge it. In order to more accurately indicate the battery level, it is recommended to perform 3–4 charge and discharge cycles when using it for the first time.
3. When not in use for a long time, please make sure to charge the power bank at least once within three months.
4. When using the power bank to charge for a long time, the product will heat up slightly, which is normal.

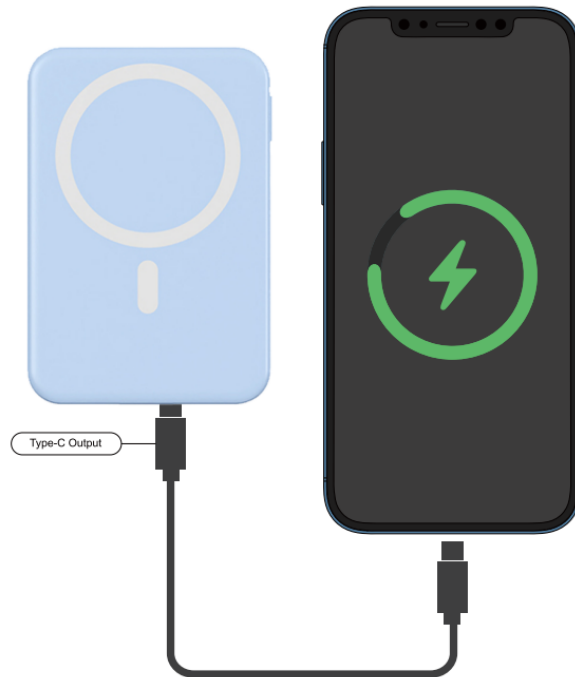

## How to charge wirelessly

Place the power bank in the middle of the back of the phone, and it will automatically attach to the phone to charge it. During wireless charging, the wireless charging indicator lights up green; after disconnecting from the phone, the wireless charging indicator goes out; when the wireless charging area contacts a metal foreign object, the wireless charging indicator flashes.

## Use a data cable to charge

Plug one port of the Type-C data cable into the power bank and the other port into the mobile phone to start charging.

## Wireless charging compatible devices

Compatible with devices that have a built-in wireless charging receiver and support fast wireless charging.

(Galaxy S9 Plus/S10/S10 Plus/Note 10/Note 10 Plus, Huawei P30 Pro/Mate 30/Mate 30 Pro/P40 Pro, Iphone XS Max/Xr/11/11 Pro/11 Pro Max and all Qi-enabled devices)

## Specifications

Product Model: ZKD-01

USB Output: DC 5V3A 5V2.1A 9V2A 12V1.5A10V2.25A (22.5W max)

Type-C Output: 5V3A 5V2.1A 9V2A 12V1.67A (20W max)

Wireless Charger Output: 5W 7.5W 10W 15W
