Downloading the App

For Apple/Android users: go to the App Store/Play Store and search for "Inskam" app, download, and install it.

For PC users: download and install the app from one of the following links:

1. www.kkmoom.com/camera.rar
2. http://www.inskam.com/download/camera.zip
3. www.kkmoom.com/pc.rar

How to use it

Connecting the camera to the phone:

- Step 1: Connect the camera with the wireless dongle
- Step 2: Press the power button to turn on the device and make sure that the battery level is high
- Step 3: Enter the WiFi settings on your phone and connect it to the Endoscope _XXXXXX
- Step 4: Open the Inskam app on your phone and click Start.

Connecting the camera to the PC:

- Step 1: Connect the camera via Bluetooth or cable
- Use Photo Booth, QuickTime Player, or VLC player on MacBook; use one of the apps you downloaded, open it, and connect the endoscope.
