## How to use

Before use, you have to pair the shutter with your phone. To do so, turn on the shutter, and it will enter into pairing mode and the indicator LED will start flashing. Activate the Bluetooth on your phone, and search for the "I Shutter", and pair it.

You can use the inbuilt camera app to take photos or you can download the "Camera 360" app from the Google Play Store for Android or App Store for iOS devices. To start shooting, select the app and press Button A for iOS or Button B for Android to take a photo.
