8. Volume down
9. Volume up
10. Indicator
11. MicroUSB port

## How to use the VR glasses

Turn on the BoboVR Z6 and connect it to your smartphone. Search and download any VR app from Google Play for Android or App Store for iOS. Start the app, open the front cover of the BoboVR Z6, align the center line of your smartphone with the BoboVR Z6's center line and fix the phone.

Put the VR glasses on your head and adjust the headband and earphones to the most comfortable position.

Myopia or Hyperopia users can use the wheels on the right to adjust to the clear position (supports 0-400° myopia, 0-200° hyperopia).
