## Product features and safety instructions

This product is suitable for tablets, smartphones, e-book readers, or any other devices that charges using a USB port. To charge your devices, plug the charger into a wall socket and use your USB cable to connect your device to the charger.

1. Prevent the USB ports from getting wet and short-circuiting
2. If any damage occurs to the product, please ask a professional to help you. Do not disassemble the product yourself.
3. Please do not expose the charger to the sun, and also avoid throwing or hitting it.
4. Do not use chemicals on the desktop charger and keep it away from sharp objects.
5. Please do not put the charger in the place of high or low temperature or open fire.
6. Keep the desktop charger away from the children.
