How to power on?

Press the red button for 2.5 seconds.

How to power off?

Make sure the keypad is unlocked, then press the red button for 2.5 seconds.

How to use a flashlight?

Just press the No.15 button on the side to turn on or turn off the flashlight.

How to use the SOS function?

- Go to SOS settings and turn the status on or off
- SOS numbers: This is very important; you can set up to 5 telephone numbers here. When you press the SOS button, the phone will dial the numbers one by one automatically.
- SOS SMS ON/OFF: You can turn on or off SOS message
- SOS SMS: You can edit SMS

How to make a call?

1. Input a telephone number and press the left green button
2. Find a contact in the phonebook and press the left green button
3. SOS special dial: press the SOS button, and the phone will dial pre-set SOS number automatically
4. Speed dial

How to change ringtone/message tone/volume?

Go to Settings → Profiles → General → Customize
