

# User Manual for Psooo PS-900 Solar Power Bank

**Specifications:**

- Capacity: 50000mAh
- Input: USB-C and MicroUSB (2A/5V)
- Output: 4 x USB-A (2.1A/5V)
- Dimensions: 166 x 82 x 52 mm

**Using the power bank**

Take the USB cable that comes in the package and plug it into your power adapter or computer. The blue indicator will show that the power bank is charging.

For the first charge, or charge after the power bank hasn't been used for a long time, fully charge it before you use it.

To charge other devices, use your cable and connect it to the power bank. When connected, the power bank indicator will turn red, meaning it's charging the connected device.
