- Weight: 650g

Operating instructions

To charge the power bank you need a power adapter or computer and a MicroUSB cable. When you connect the cable to a power source the indicator on the power bank will show its charging status.

If you haven't used the power bank for a longer time, please fully charge it before you start using it. The power bank will show how much it is charged. Also, when charging other devices, it will show how much power is left in the power bank.

To power on the flashlight simply double press the power button of the power bank. Double press it again to power the flashlight off.
