1. Microphone
2. Multifunctional button
3. Indicator light

4. Charging point
5. Battery level of the right earbud
6. Battery level of the left earbud

Multifunction button (MFB)

Tap the left earbud's button 3 times for the volume up. Long-press the left earbud for the previous song.

Tap the right earbud's button 3 times for the volume down. Long-press the left earbud for the next song.

Tap the MFB on either earbud to play or pause music.

Double-tap the MFB on either earbud to answer the call.

To end a call, double-tap the MFB on either earbud.

To reject a call, long-press the MFB for 1 second.

To activate/deactivate Siri, tap the MFB on either earbud 3 times while in standby mode. Double-tap on both earbuds to deactivate Siri.

Functions

When you use the earphones for the first time, take them out of the charging case and peel off the protective film. Once put into the charging case, the earbuds will turn off and start recharging automatically. When taken out from the charging case, the earbuds will turn on automatically.

Take out the earbuds from the charging case and they'll enter the pairing mode with the red and blue lights flashing alternatively. Open the Bluetooth settings on your device and search for Power Q25 Pro. Tap on it to pair. To pair them with the PC or laptop, turn on the computer's Bluetooth, search for the Power Q25 Pro, and tap Pair/Connect.

To recharge the charging case use your power adapter or plug it into your computer's USB interface. The indicator light of the charging box lights up to indicate that it is charging.
