- Dongle dimensions: 8.5 x 3.5 x 1.7 cm
- Cable length: 12.5cm

DrivePlay app

There are two ways to download and install the DrivePlay app. One way is to connect the USB dongle to your smartphone and go to the address 47.97.123.212/download/nonauto to download the app. Install it, open the DrivePlay app and check "Always open app when the dongle is connected" and tap OK.

The other way is to go to the web address 47.97.123.212/download/nonauto via a computer browser and download the apk file. Copy it to your smartphone (using a microSD card or connect the phone to the computer) and install the app.

Once the DrivePlay app is installed and open it. Connect your phone to the USB dongle and the LED indicator will start flashing indicating it's waiting for the connection.
