- Blue status: connecting
- Green status: successfully connected

## Specifications

- Power input: 5V, 1A
- Power output: 5V, 1A
- Power consumption: 0.75W

### Connection Diagram CarPlay (wireless connection)

### Connection Diagram Android Auto (wireless connection)

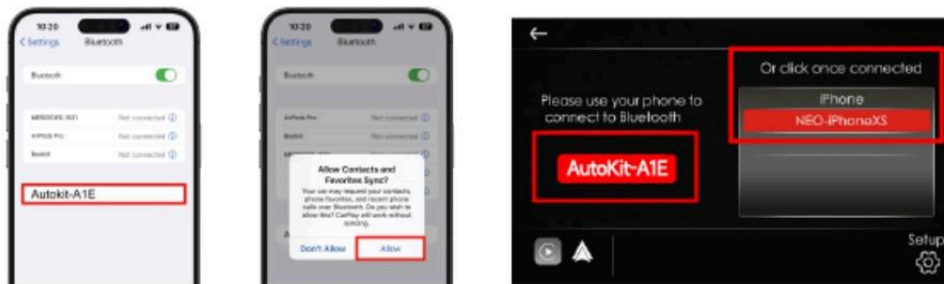

## Supported Phones and Vehicles

- iPhone: iPhone 6 and above, iOS 10 and above
- Android: Android 11 and above
- Cars: Cars with original wired CarPlay or Android Auto function

## Wireless CarPlay Connection Steps (with UI)

1. Plug it into the USB port of your car
2. Turn on your iPhone's Bluetooth and WiFi, pair it via Bluetooth (name: AutoKit-xxx)
3. Wait for a prompt on the car for CarPlay connection, click use CarPlay and enter the product's UI interface
4. iPhone pop-up prompts, click Use CarPlay

## Wireless Android Auto Connection Steps (Non UI)

1. Plug it into the USB port of your car
2. Turn on your Android phone's Bluetooth and WiFi, pair it via Bluetooth (name: AutoKit-xxx)
3. Wait for your phone to finish connecting, click on the Android Auto option in the car to enter wireless Android Auto

- Note: the vehicle may pop up "Android Auto" or Bluetooth connection prompt. Click to connect or start, when the wireless Android Auto is running, the Android phone will continue to establish a connection with the car's Bluetooth.

## Update Version Online/Feedback Problem

- Steps to enter the background:
  1. Insert the adapter into the car's USB port
  2. iPhone connected to adapter's WiFi
  3. Enter 192.168.50.2 in the browser

Note: please make sure your phone is connected to the mobile network

### - Click "Check Update":

1. You can check whether it is the latest version
2. You can upgrade and update the latest version online

### - Click "Feedback":

1. Enter your car's brand, model, year and report any product issues
  2. Send the screenshot of the contents to customer service
  3. Once submitted, a technician will follow up and fix the problem
- Android phones can download the AutoKitools app for management (URL: <https://www.carlinkit.com/download.html>)
