12. Adjustable gradient light

Product Introduction

This product is a GaN desktop charging station with 10 DC outputs and LED ambient lighting. The DC part is made from a new type of semiconductor material, with a total output power of 660W. The product features a compact size and a rich array of interfaces (6 Type-C + 4 USB-A), and supports a comprehensive range of fast charging protocols, including QC4+, PD3.1, PD3.0, QC3.0, QC2.0, PPS, SCP, FCP, AFC, PE+, etc.

USB-C1/USB-C2: When used individually, the two ports support a maximum output power of 140W (28V/5A), providing PD3.1 full-speed fast charging for the latest MacBook Pro laptops. When C1 and C2 are charging simultaneously, they can still continuously charge the laptop, offering PD fast charging for Apple notebooks.

C1/C2/C3/C4/C5/C6 also support fast charging for various smartphones, including Apple 27W, 20W, Samsung 25W, Samsung 40W (PPS: 10V4A), Xiaomi 27W, Huawei SCP 22.5W, etc., enabling fast charging for mobile phones, tablets, and laptops. A1/A2/A3/A4 support QC3.0 fast charging.

Description of the Color-Changing Light Function

Power-On Mode : When the device is powered on, the light will display an ice-blue color and run a sequential lighting effect (similar to a horse race).

After the sequential lighting effect finishes, the light will remain constantly on.

Mode 1 : Press the touch button once. The light will remain constantly on, and the color will be light sea blue.

Mode 2 : Press the touch button once. The light will remain constantly on, and the color will be passionate red.

Mode 3 : Press the touch button once. The light will remain constantly on, and the color will be fresh green.

Mode 4 : Press the touch button once. The light will remain constantly on, and the color will be rose pink.

Mode 5 : Press the touch button once. The four colors (light sea blue - passionate red - fresh green - rose pink) will run a sequential lighting effect.

Mode 6 : Press the touch button once. The four colors (light sea blue - passionate red - fresh green - rose pink) will sequentially perform a breathing fade-in and fade-out effect.

Mode 7 : Turn off the light.

Usage Environment

- Operating Temperature : The operating temperature of the product is suitable for non - tropical areas below an altitude of 2,000 meters.
- Storage Temperature : The storage temperature should be kept between - 20°C and 40°C

Notes

1. Do not store the product in high - temperature, strong - light, or strong - magnetic fields. Do not place it in other harsh environments such as near a fire source. If water enters the product, let it dry naturally and then use it again.
2. Incorrect use of this product can easily damage it or may pose risks to personal and property safety.
3. If consumers suffer personal or property losses due to improper use in violation of the user manual or ignoring the warnings, they shall bear the responsibility themselves, and our company will not assume any legal liability.
4. It is strictly prohibited for non - professionals to damage this product.
5. Avoid using household appliances or loads that exceed the output current of this product (there will be no output due to circuit protection).
6. Avoid tense physical actions, including hitting, throwing, stepping on, and squeezing.
7. Note that the charger is only suitable for indoor and dry non - humid environments.
8. If the charging power does not reach the power advertised, this cannot be completely attributed to the device. It may be due to the quality impact of other components, such as the quality of the charging cable.
